3. Upload your electronic file and any associated files

Before you begin, please be sure you have the following items:

Submission Agreement for *Electronic Theses and Dissertations*

Note: this text is offered as a suggested model, not as legal advice.

By checking the box below, I grant to Stephen F. Austin State University the non-exclusive right to distribute my thesis or dissertation ("the Work") over the Internet and make it part of the SFA ScholarWorks.

I warrant as follows:

1. that I have the full power and authority to make this agreement;
2. that the Work does not infringe any copyright, nor violate any proprietary rights, nor contain any libelous matter, nor invade the privacy of any person or third party;
3. that the Work has not been published elsewhere with the same content or in the same format; and
4. that no right in the Work has in any way been sold, mortgaged, or otherwise disposed of, and that the Work is free from all liens and claims.

I understand that while I have given the university the non-exclusive right to distribute my thesis or dissertation over the Internet, I still retain copyright to my thesis or dissertation. I may exercise these rights in anyway I see fit as long as it does not infringe on the university's non-exclusive right to distribute my thesis or dissertation over the Internet.

I understand that once a thesis or dissertation is deposited in the repository, it may not be removed.

NOTE: It is suggested that you print this page for your records.

Please check this if you agree to the above terms.

After checking the box to agree and clicking “Continue” you are then taken to the main submission screen. Here, you will enter all of the relevant descriptive information for your thesis or dissertation. Immediately below we see a screen shot of the top of this page. For the rest of this tutorial section we will cover – providing tips and guidance when applicable – each information field that you will need to fill out.

The screenshot shows the top of the ScholarWorks submission page. On the left is a navigation sidebar with the SFASU logo and sections for BROWSE, SEARCH, and AUTHORS CORNER. Abstract

The abstract is an important component of your ETD as it is presented at the beginning of both the downloaded, or viewed, thesis or dissertation and the ETD landing page. You can view the abstract as an opportunity to set accurate expectations for the potential researcher or reader. The abstract should present all the major elements of your work in a highly condensed form as a descriptive or informative summary. The suggested length is between 250 and 500 words. As mentioned above, include in your abstract the keywords that you selected previously in the process.
