This Project is brought to you for free and open access by the School of Human Sciences at SFA ScholarWorks. It has been accepted for inclusion in Interior Design Senior Projects by an authorized administrator of SFA ScholarWorks. For more information, please contact cdsscholarworks@sfasu.edu.

A green watercolor splash graphic is located on the left side of the page, partially overlapping the title. The splash is composed of various shades of green, from light to dark, with some darker spots and a textured, painterly appearance.

Design Philosophy

My design philosophy is based on the belief that every space should reflect the needs and personality of those in it. A well-designed space should embody a timeless, functional design while having a unique interior that is comfortable, livable, and nurturing. Every space should include natural elements to express the nurturing qualities of the earth and should increase the mental and physical wellness of those occupying it. It is not enough to have a luxurious space; instead a well-designed interior must give the user a sense of comfort and livability along with being aesthetically beautiful. It is of the utmost importance that each space directly reflects those who are occupying it, allowing each design to be unique and exceptional.
