Julie Sill

Interior design is not only a career it is also my passion. I have always had a passion for design especially when it comes to residential spaces. While there are many different rooms in a home I am always drawn to living rooms, bedrooms, and kitchens. Each room is like a different piece of a puzzle, they can all have their own personality, but still all fit together to create a wonderful home.

My name is Julie Sill and I am from Highland Village, TX. I became interested in interior design because of my mom. She taught interior design at my high school and I grew up learning all about it. My goals for the future are to find a job in the Dallas area with a residential design firm.
