

Going Green makes CENTS!

A project for a small business to “go green”.

Project Description

- Training Sessions for employees
- Training outside companies on how to “go green”
- An Open GreenHouse to showcase to the community the company’s “green efforts”
- An employee luncheon and award ceremony to honor employee “green achievements”

Employee Training

- Training for employees on “going green” both at work and at home
- Instructions for changes in business operations
- Serve as a forum for employees to voice opinions and ideas about green initiative

Outside Training

- Visit other businesses to train and educate their staff
- Charge small fee for services. The income goes to sustainability programs
- Spreads knowledge about going green

Open GreenHouse

- Open business doors to the community to display the “going green” changes
- Presentation by outside training team to advertise service
- Allows the community to voice opinion on “going green”
- Give the company free advertising from local media

Employee Luncheon

- Training for employees on “going green” both at work and at home
- Instructions for changes in business operations
- Serve as a forum for employees to voice opinions and ideas about green initiative
