# Stephen F. Austin State University Parking

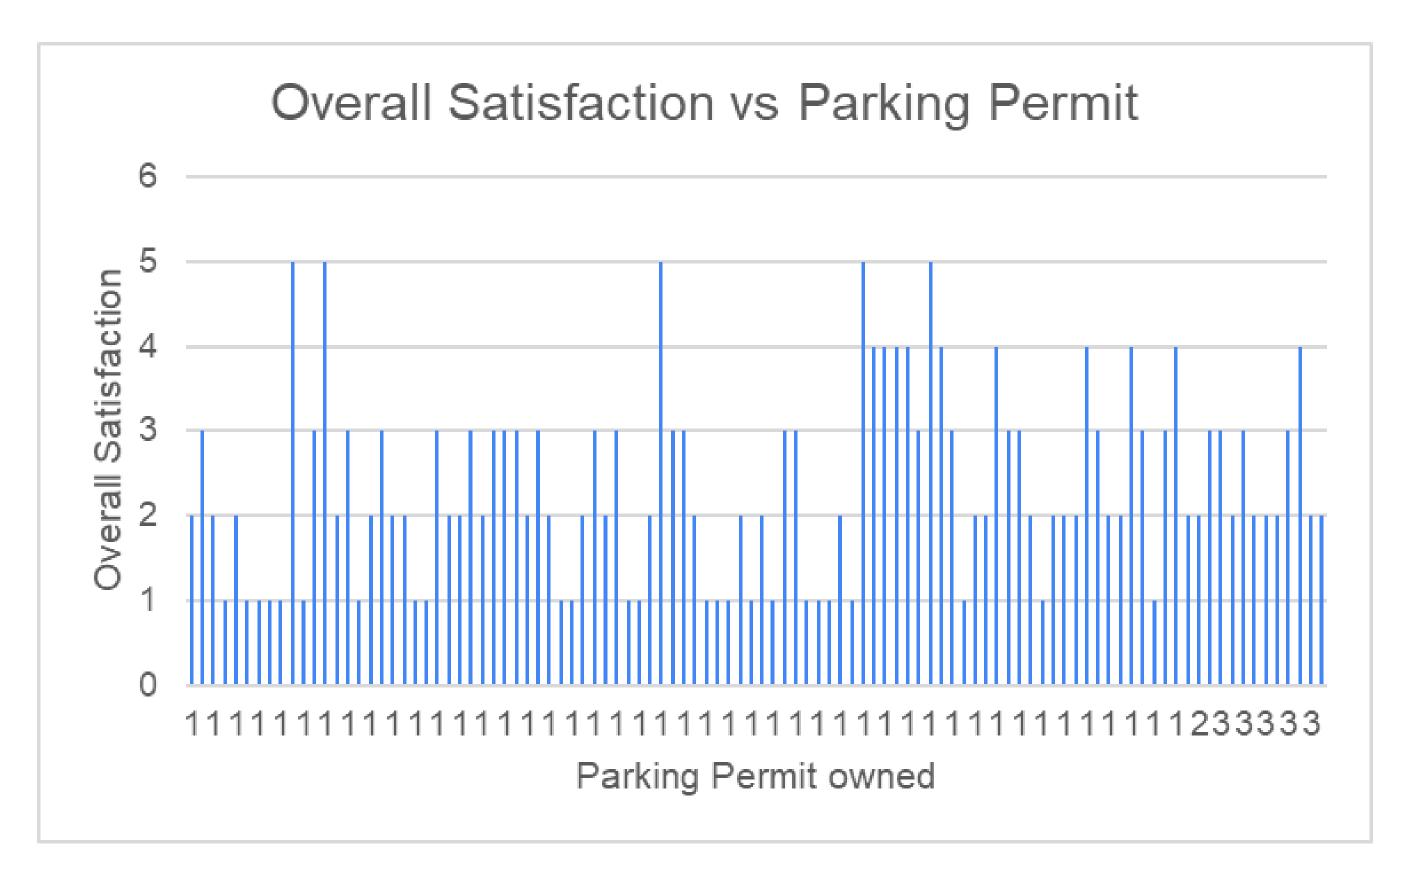

Researcher: Madilyn Williams Researcher: David Gonzalez Faculty Sponsor: Wenjing L, Ph. D

#### Introduction:

- Have you ever tried to find parking on campus and notice there is no available parking spots?
- We wanted to dig a little deeper into the issue and see what students perceptions of SFA parking were and if we could find solutions.

### Results:

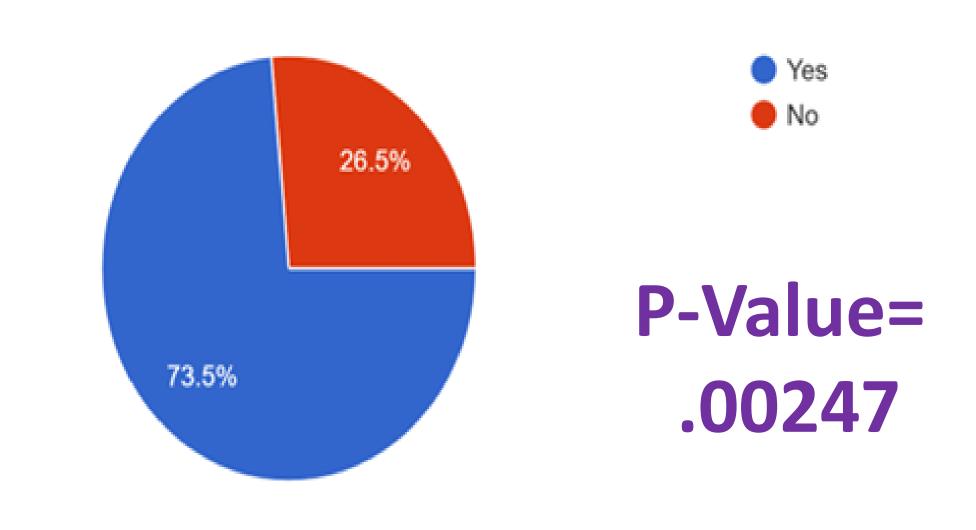

P-Value= .0082

### Objectives:

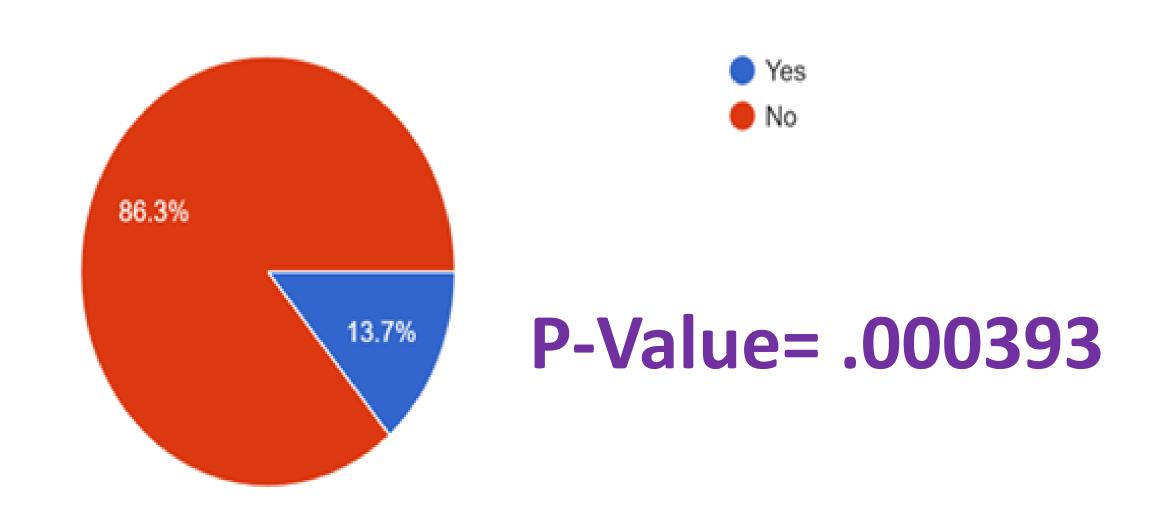

- To investigate student's satisfaction with SFA parking using a graded scale.
- Find out if there is
   a specific aspect of SFA
   parking that needs to be
   improved and if needed
   improvements how to
   achieve this goal.

Have you ever skipped a class because you could not find parking on campus?

Are there enough spots for commuter parking within a 5min walking distance from class?

102 responses

## Methodology:

- We created an online survey to achieve our objective and created a QR code.
- We invited all students, faculty, and staff to participate.
- Our sample was composed of 102 respondents.

#### Conclusion:

The key findings concluded that Stephen F. Austin should have a parking garage open for commuters, that unused staff spots go to commuters, and that a parking garage should be added.
