**Experience**

My group had the opportunity to receive real world experience from serveral advertising agencies, schools, museums, and self sufficient artists.

We observed art and design from timeless pieces in history to contemporary works.

The team was also able to network with other students and professionals in our field.

**Learn**

We gained better knowledge of the elements and principles of design, use of media and the techniques associated, as well as problem solving and creative possibilities.

My project involved my observation of people's complete lack of notice of the art work around them due to the overwhelming amount of stimuli and busyness of their daily lives.
